### DETAILED ACTION

This action is in response to applicant's amendments submitted 7 June 2007.

#### ***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 32-36, 38,39, 41-43,50,52,54,55,57,60 are rejected under 35 U.S.C.

103(a) as being unpatentable over Romaine (US 4,270,537) in view of Brownfield (US 5,681,283).

Romaine teaches a molded device housing (20,46), cover (20) a molded plunger (12), a lock (34), a drive (44) including a flexible plastic member. Figs 1 and 2. Romaine does not teach that the drive includes multiple flexible plastic members.

Brownfield teaches a device which includes multiple flexible plastic members (9) and is similar in operation to the device of Romaine, but does not contain a lock. Fig 7.

It would have been obvious to one of ordinary skill in the art at the time the invention was made to use the dual members of Brownfield on the device of Romaine in order to prevent torque from being applied to the plunger, thereby improving the operation of the syringe.

As to claims 33-35,52 Romaine 44; claim 36 is a product by process claim and is given little patentable weight; claim 38,39 needle 16; claim 41-43,65 engagement areas 38; claim 50,57 element 26; claim 54, Brownfield 3;

***Allowable Subject Matter***

3. Claims 40,51,53,56,58,59,61-64 allowed.

***Response to Arguments***

4. Applicant's arguments with respect to claims 32-36, 38,39, 41-43,50,52,54,55,57,60 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
